Spanish: Lea el código para obtener instrucciones.
French: Scannez le code pour les instructions.

YOU MAY NEED

- posts
- mallet
- fence ties
- wood slat

INSTRUCTIONS

(1) Your Tenax fencing can be installed using metal or fiberglass posts. **(2)** If installing a 4 foot fence, use a post that is 5-6 feet tall. **(3)** Drive at least 1 foot of post into the ground using a mallet. **(4)** One post should be placed every 8-10 feet. **(5)** Fence should be stretched across posts and attached using 3 fence ties securing the fence at the top, middle, and bottom of each post. **(6)** To connect fence sections, overlap two ends and weave a wood slat through the overlapped strands, secure the slat with fence ties. For additional strength secure the joined area to a post.
